Ashraf Mohamed Maher

Software Developer

ashrafmohamed2469@gmail.com | LinkedIn |GitHub | +201157711928

Objective:

Aspiring Software Developer and Computer Science graduate with a strong foundation in software development using Java, Flutter, and React. Experienced in object-oriented programming and UI/UX design, now transitioning into DevOps with a focus on automation, CI/CD pipelines, cloud infrastructure, and containerization. Eager to apply development skills in real-world environments and contribute to cross-functional engineering teams.

Education:

Bachelor of Computer Science **Arab Academy for science, Technology and Maritime Transport**

- Graduated in 2024.
- GPA 3.0.

Technical Skills:

- **Design Tools:** Figma (Advanced).
- **Web Development**: HTML, CSS, Java Script, React framework.
- **Mobile Development**: Dart, Flutter.
- **Tools & Technologies**: Git, GitHub, Firebase, Unity.
- **Backend & Databases**: MySQL, PHP.
- **Operating Systems**: Linux, MacOS.

Soft Skills:

- Problem solving
- Communication skills
- Team collaboration, Adaptability
- Fast learner, self-motivated and proactive

Training courses:

- **September 2023**
  CCNA Networking
  Cisco through AAST
  60 training hours

- September 2023
  Mobile application development by using Flutter.
  Live in mars.
  60 training hours.

- February 2023
  Mobile application development by using Flutter.
  Information Technology Institute (ITI).
  60 training hours.

- August 2022
  Backend Testing Advanced track.
  Ministry of Communications and Information Technology (MCIT), Egypt, through Udacity
  150 training hours.

Projects:

- Mario Martina – Tourism Website
  Designed and developed a responsive website for a fictional tourism company, focusing on user experience and brand appeal. Built with HTML, CSS, and JavaScript to highlight destinations and attract users through clean visuals, consistent layout, and effective call-to-actions.
  Skills:
  UI Design, Web Design, Responsive Layouts, HTML/CSS/JS, Visual Hierarchy.
  Live site: https://mariomartina.github.io/mario-martina/

- AR Education – Educational App Hub Website (Graduation project)
  Designed and built a web platform that shows 6 augmented reality (AR) applications aimed at enhancing educational experiences. The site allows users to preview, learn about, and download AR apps tailored to different subjects. Prioritized usability and accessibility across devices, with clean layouts and clear calls-to-action.

  Skills:
  UX/UI Design, Unity, Augmented Reality (AR), Web Architecture, Responsive Design, HTML/CSS/JS/PHP, Educational Product Thinking.

- Visa Form Management Platform – Egypt Consulate in Kuwait
  Developed a web-based platform for managing visa form applications, tailored for use by the Egyptian Consulate in Kuwait. The system supports submitting, viewing, editing, printing, and deleting applications with a user-friendly interface and streamlined backend logic. Focused on clarity, accessibility, and administrative efficiency.

  Skills:
  UX Design, Form Architecture, Web App Functionality, Front-End & Back-End Integration, HTML/CSS/JavaScript, PHP, Laravel Data Handling.
